

Dear Parents,

This month's Fruit of the Month is the **strawberry**. Strawberries are the first fruit to ripen each spring. It is the only fruit with seeds on the outside, and there are 200 of them on an average strawberry. Americans eat an average of 3.4 pounds of fresh strawberries every year. This month's Vegetable of the Month is another favorite, **corn**. America is the world's largest producer of corn. This is no small accomplishment, farmers grow corn on every continent except Antarctica.

June 20<sup>th</sup> is the last day of lunch service. June 21<sup>st</sup> is an early dismissal and the last day of school. Enjoy the summer break!

Pomptonian is pleased to be Summit's food service provider, and we appreciate your comments and suggestions. You can reach us at [Pomptonian@summit.k12.nj.us](mailto:Pomptonian@summit.k12.nj.us).
